

SENEX SPORT projector

Athens Olympics Swimming Pool Lighting just completed. We are proud to have had the opportunity to light up on of the most important Pool Sport Complex with our Lighting solutions. Bright was able to meet the client's need and we are pleased to see the prestigious project shine in a new and modern light. Quality lighting can make the difference between a good or bad workout or victory or failure in many sports.

Having in consideration light for safety and effective crowd management, to guarantee visual comfort for optimum viewing from all seats, to keep maintenance work and costs to a minimum, and to generate energy savings of up to 70% by combining the best of LED technology with a range of control systems our New Projector SENEX SPORT 600W was the perfect solution.

Made by Die Cast Aluminium, Up to 160Lumen per Watt, Special Optics from 12° to 80°, with many Control Methods, Self-clean, Dust-free, Wind Resistance, available with High CRI, 3G Vibration Rating (ANSI C136.31-2001), LM6 Aluminum Available for Corrosion Resistance Application and 2000 Hours Salt Spray Testing upon request was the ideal solution.

Whatever your need, whatever the area there's a fitting waiting for you and adding just few accents can tie together your overall design for a finished project to be proud of..
