

BENE

downlights series

Choose between Surface mounted, Trimmed or Trimless light devices with our new range **BENE**.

BENE is a great solution for general lighting in public spaces such as offices, conference rooms and showrooms.

The high light accuracy and flexibility with lumen output make the fitting also great for museums, galleries, hospitality and residential.

Invisible design meets optimum visual comfort. Seamless integration into the surroundings, providing a subtle light in the required space.

BENE designed with technical solutions that reduce the need for cleaning or maintenance. Thanks to our latest generation LED that are specifically designed to improve energy efficiency.

Extruded Aluminium with Anti Glare Black Reflector Design available in Single, 5x and 10x options with different beam angles options. Available in 15°, 30°, 45° and wall washer, **BENE** is a stylish solution for general lighting, offering minimalist design with maximum lighting and design effects.
