

**You draw it.
We make it!**

LINEAR LIGHTING PROFILES - SYSTEMS

Bright's **Linear Lighting Profiles** are available in length up to 4500mm.

Custom lengths for continuous lighting systems are available and bespoke geometric shaped feature lights for recessed, trimless and suspended placement.

This clean, refined luminaire option will ensure that any application stands out while maintaining a well-constructed, impressive visual as standard.

Custom shapes, opal, opal-microprismatic and low glare diffusers, up to 140Lumens/W, direct/indirect options, clip in gear tray.

Don't just limit what we can do to what you can see, because your imagination is the real limit of what we can do – **you draw it we make it!**
