

# VITO

**VITO** is a cast-pressed IP rated product, which covers a wide variety of lighting characteristics, and therefore offers appropriate solutions for a large number of lighting requirements. Can be wall mounted, surface mounted, projector and Spike mounted. High efficiency, low maintenance costs, excellent color rendering and efficient glare control make **BRIGHT VITO** the ideal solution for a wide variety of projects.

**VITO** meets the requirements of lighting design in outdoor areas. A choice of lumen packages up to **4000 Lumen** and flexible mounting options, make it ideally suited for lighting man-made and natural objects, pathways, open spaces and landscapes.

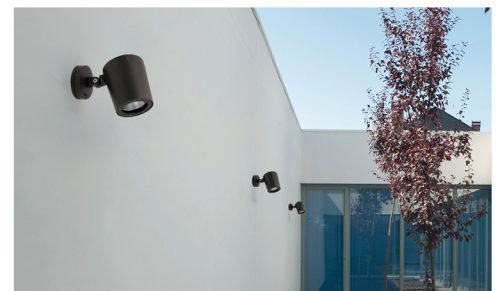

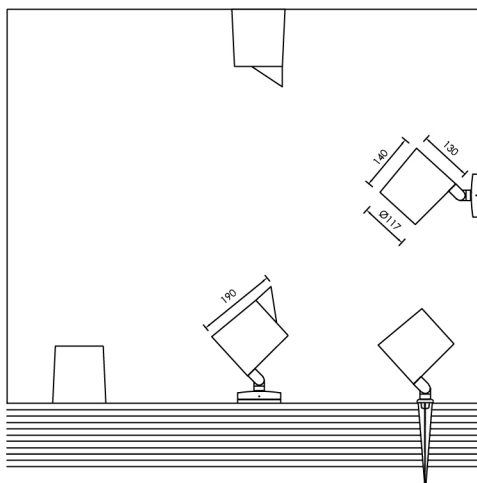

The housing is exceptionally weather-resistant. The maintenance of the LED luminaires guarantees maximum efficiency, saving on resources and running costs. Precise photometry prevents wasted "spill light" as a further eco-friendly factor. In a dynamic environment with highest requirements, we offer the necessary process quality, flexibility and internationality to develop sustainable concepts that go far beyond short-lived trends.

Our resources in the field of Research and Development make it possible to develop innovative LED-luminaires so that we are one step ahead of our competitors.

Lighting is one of the most important elements of design. It serves many functions, such as providing safety, assisting in performance of tasks, creating an atmosphere for entertaining, and pulling together the overall design intent. Above all else, lighting provides beauty and great lighting will bring your space to life.
